

Softline

Change the way
you think about
ice cream.

191 Single-Portion

Carpigiani's Single-Portion 191/P is a countertop, pump-fed, soft-serve, ice-cream machine with three different dispensers to quickly and easily make classic cones as well as tempting and beautifully prepared individual portions, takeaway cups and sundaes.

Keys
to switch on and off as well as program ice-cream consistency and mixture storage.

Refrigerated Tank
to store the mixture hygienically; low level sensor.

Gear Pump
pressurizes the mixture with air and feeds the production cylinder to create creamy, ice cream with an increased volume.

Softline. A never-ending source of inspiration, for ea

Miss Yogurt 191

Miss Yogurt is the most popular machine used to make this particular kind of ice cream. A bright and colourful machine, with equally eye-catching graphics, it is a never-ending source of special fruity ideas and fancy desserts.

Refrigerated Tank
to hygienically store the mixture rich in live probiotic cultures.

Gear Pump
made of a polymer resistant to the yoghurt's acidity to make a light, fluffy yoghurt-ice cream.

Mixer in Tank
to move the mixture around and keep it fluid.

Single-Body Beater
to freeze all types of yoghurt ice-cream.

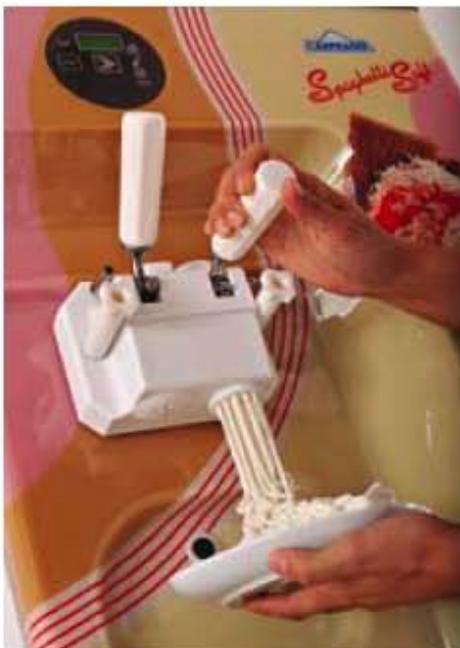

The yoghurt-ice cream
for gourmets

easy-to-make, exquisite desserts.

Spaghetti Soft 191

Spaghetti Soft is an easy-to-use, countertop, pump-fed, soft-serve, ice-cream machine for high volume production, designed to serve spaghetti ice cream as well as traditional soft-serve ice cream quickly and creatively.

The sweetest spaghetti just needs the "sauce" of your choice.

The machine that gives free rein to your imagination,
and new ice-cream delights for your customers to try out.

Production

Two dispensers and three interchangeable nozzles to make effortless single-portion ice creams and quickly fill large or narrow sundae dishes, cannoli, Rocher, standard cones, pipe cones and charlotte pastries.

Display

All these tasty single portions can be displayed in a standard upright frozen dessert display cabinet or in a horizontal ice-cream display case, on steel trays instead of tubs.

Storage

Since the single portions are made with soft-serve ice cream and protected by wafers and toppings, they can be easily conserved in the freezer at home and eaten at any time as they will remain soft and creamy.

Technical features
